

RISE Undergraduate Student Research Grant Guidelines

1. Grant Application Process

a. Eligibility:

- The applicants must be final-year undergraduate students. (L4-T1 of the Engineering and URP Departments and L5-T1 of the Architecture Department)
- The proposal must be a part of the final-year thesis and project.
- The students may apply individually or as a team.
- The applicants must have an officially assigned supervisor.

b. Proposal Submission:

- You need to submit a proposal, a budget, and a letter of support from your supervisor to apply for the grant. You must follow the templates provided in the “RISE Research Portal” to prepare your document.
- Prepare a detailed research proposal outlining your project's background, objectives, methodology, significance, and expected outcomes following the proposal submission template.
- Adhere to the specified format and word limit provided in the student research grant proposal template.
- A signed letter of support from the Project/Thesis Supervisor must be submitted along with this proposal.
- Follow the budget template and include a budget within BDT 1 Lac (Including a maximum of BDT 10 thousand for conference presentation allowance) that clearly outlines the funds requested.
- The applicants must apply and submit the documents using the RISE Research Portal link: <https://ictcell.buet.ac.bd/portal/#/login>
- The login credentials will be the same as your BIIS account.

c. Review: Your proposal will be reviewed by the review committee, and the grant will be awarded according to the merit of the proposal.

2. Awarding Ceremony

a. Grant Acceptance: An awarding ceremony will be held to award the grant to the selected proposals, and the grant recipients must submit a “Grant Acceptance” letter to accept the funding officially.

b. Poster Presentation: All grant recipients are required to present a poster on their research proposal in the awarding ceremony.

3. Fund Disbursement

a. Disbursement Process:

- If your grant proposal is accepted, you can claim the grant by applying through the fund disbursement form, ensuring all necessary supporting documents are attached.

b. Timeline:

- You can claim the grant anytime during the project duration, showing proof of purchase.

c. Proof of Purchase:

- Keep detailed records and receipts for all expenses related to the research project.
- Submit clear and organized proof of purchase documents with the signature of your supervisor to claim your research grant.

4. Project Completion

a. Completion Report:

- Follow the project completion report (PCR) template and submit a comprehensive project completion report, summarizing the research process, findings, outcomes, and other necessary information. Submitting the PCR is mandatory.

5. Publication and Presentation

a. Declaration of Funding Source:

- Clearly acknowledge the “RISE Undergraduate Student Research Grant” as the funding source in all publications and presentations related to the research.

b. Conference Registration and Participation Expense Claim:

- You can claim a maximum of BDT 10 thousand for conference registration and other related expenses. You must present your work at the conference to claim this fund.
- You can claim funds for this purpose only before the deadline of PCR submission.
