RISE Student Research Grant**

Call ID: S2026-01

Project Title: Modular Sparse Autoencoders for Multi-Site Post-Translational Modification Interpretability in Protein Language Models

in BDT						
Economic Code	Item of Expenditure /Activity	Unit	Quantity	Rate	Estimated Cost (Taka)	% of Estimated total Cost
(a) Conference Registration and Participation Expenses						
3211111	<i>Conference Presentaion Allowance:</i>					
	Conference registration and participation allowance for project presentation (maximum BDT 10,000)	package	1	10,000	10,000	14.16%
	Sub-Total				10,000	14.16%
Total Conference Participation Expense					10,000	14.16%
(b) Resource Purchased						
3256102	<i>Chemicals:</i>					
	Not applicable					
	Sub-Total				0	0.00%
3257104	<i>Research Data Collection (Survey, Sample Testing, Data Collection):</i>					
	Not applicable					
	Sub-Total				0	0.00%
4112306	<i>Laboratory Equipment:</i>					
	Not applicable					
	Sub-Total				0	0.00%

4112202	Computers and Accessories:					
	Not applicable				0	0.00%
	Sub-Total				0	0.00%
4113301	Computer Software:					
	Google Colab Pro+ GPU subscription for project team (1 shared account x 7 months @ BDT 7,014/mo, based on base price USD \$49.99/mo + 15% statutory digital service VAT = USD \$57.49/mo, at bank conversion rate of BDT 122/USD)	month	7	7,014	49,098	69.51%
	LLM API credits and research tooling subscriptions (OpenAI/Anthropic API access for automated latent interpretation and literature synthesis; 7 months @ BDT 1,450/mo, based on USD \$10.00/mo + 15% digital VAT @ BDT 122/USD + bank card fee)	month	7	1,450	10,150	14.37%
	Sub-Total				59,248	83.88%
Total resource purchased					59,248	83.88%
Total Cost (a+b)					69,248	98.04%
(c) Contingency						
3257303	Operations contingency (maximum 2% of total cost (a+b))	lot	1	1,385	1,385	1.96%
Total Project Cost (a+b+c)					70,633	100.00%
